	ON	UNLOCKED
ON	ON	ERROR
FLASHING SLOWLY	FLASHING SLOWLY	LOW BATTERY
FLASHING ALTERNATIVELY	FLASHING ALTERNATIVELY	NO LINK WITH BASESTATION

2.0 manual lock operation

2.1 To Disengage the Autolock:
Press the emergency lock/unlock button on the front of the Auto-Lock to disengage the locking bolt from the guide track and allow you to disengage the opener and open the door.

⚠️ **WARNING! The emergency lock/unlock button on this product is not to be used as a primary means of locking the door under normal circumstances.**
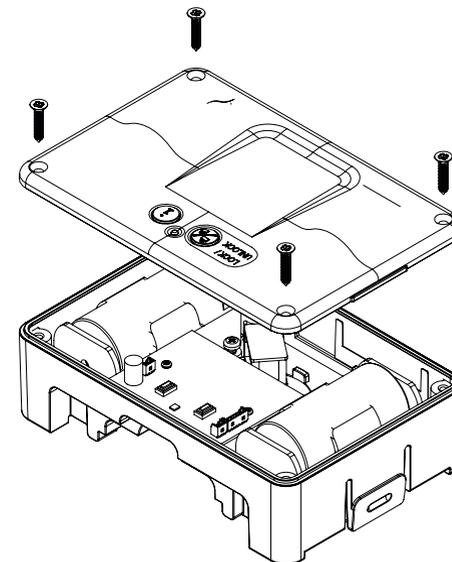

2.2 Use of the Lock/Unlock Button:
The emergency lock/unlock button is to be used only in case of power outage or emergency.

3.0 battery replacement

Battery Type: 2 x C-LR 14.
1. Replace lock batteries (2 x C-LR 14) immediately when the Auto-lock LED's red and green lights flash 3 times or are flashing slowly.
2. Remove cover by unscrewing the four screws on the main cover.

3. Replace batteries and refit cover and secure with screws.
4. Test the Auto-lock operation by using the opener to open and close the door.

4.0 smart phone control (optional)

The Smart Phone Control works via your home's WiFi network. Initial set up involves linking your phone app, smart hub and opener to your home network.

When connected you can view the operation of your Autolock and the App will send you notifications when issues arise.

Symbol identifies the Autolock is locked

Symbol identifies there is an issue with Autolock

Message notifies user that the door was unable to open due to the Autolock.
Refer to troubleshooting for remedies.

red and green lights flashing alternatively	no link to opener	press the unlock button on the lock with flashing lights to disengage the bolt. Call 13 62 63 for assitance.

6.0 caring for your Autolock

Preventative servicing of your garage door, opener and autolock, is important. Your autolock is made up of numerous moving parts designed to lock your door every time you close it.

Ongoing care ensures that your door continues to function within factory specifications, greatly reduces the risk of failure and repair bills down the track and ensures you maintain your Warranty.

If the Autolock is located in a very dirty / dusty environment, be sure to vacuum any residue from the lock and bolt before continuing use.

⚠️ **WARNING! Do not use water, benzene or alcohol when cleaning the product, as these fluids can cause product malfunction.**

7.0 need a service call?

If the Autolock needs a service please call the dealer who installed the garage door opener (their contact details are usually on a sticker on the back of your garage door).
